

The Hong Kong University of Science & Technology
School of Science
Intention for Additional Science Electives (School Requirement)
International Research Enrichment (IRE) Track Students

Notes and Application Procedure:

1. According to the IRE curriculum, all students in the IRE Track need to complete a minimum of 6 credits of additional Science Electives (2000-level or above). This requirement is designed to reflect the inter-disciplinary nature of the IRE curriculum and the courses should be chosen outside a student's major program.
2. Students should complete Sections I & II and seek approval from the IRE Coordinator before course enrollment.
3. The IRE Coordinator should indicate his/her approval by signing in Section III of this form and inform the students of the approval/disapproval.
4. The IRE Coordinator please forwards the approved requests to the School of Science for record/checking purpose.
5. Upon receiving the approval of the IRE Coordinators, students should proceed with the online course enrollment procedures as usual. The approval by IRE Coordinator does NOT imply automatic course enrollment.
6. For details of program curriculum and course catalog, please refer to the AQUUS website (<http://ugadmin.ust.hk/index.html>).

I. Student Particulars

Student Name: _____ (Surname) _____ (First Name)
Student ID No.: _____
Program of Study: _____ Admitted in: _____ (Term), 20__ - __ (Year)
Year of Study: _____
Contact No. / Mobile No.: (_____) _____
Email Address: _____

II. Additional Science Electives (min. 6 credits; 2000-level or above)

I intend to choose these Science courses to fulfill the School Requirements specified for IRE students:

1. _____ (Course Code) _____ (Credit)
2. _____ (Course Code) _____ (Credit)

Signature of Student

Date

III. Approval by IRE Coordinator
