STUDENT VOICES

Don't take our word for it, hear what our students have to say!

“ One of the major benefits of living in a city like Dublin is the abundance of cultural activities and events. Particularly, there is a plethora of diverse and fascinating museums.”

– Jessica Murphy,
Brown University

“ Everyone should study abroad for a full year if given the opportunity. If you study abroad for a semester, you'll just be getting comfortable and familiar when it's time to pack up and leave.”

– Miles Morgan,
University of Chicago

“ One of the factors that must contribute to the great thinkers and writers that this university has produced, is the vast amount of independent learning that one has to do. This emphasis on self-teaching and independent research permeates every area of academic life.”

– Anna McAlpine,
University of St. Andrews

“ Trinity College is known for its literary history, with accomplished writers Anne Enright, Samuel Beckett, Bram Stoker, Jonathan Swift, and Oscar Wilde counted among the university's alumni. With Dublin named a UNESCO City of Literature, visiting & international students would be remiss to miss out on some of the amazing independent writing and arts happening in the city during your time here. I love heading out to the events recommended to me by LitSoc & my English professors.”

– Clodagh Schofield,
University of Sydney

“ If one thing has struck me about Trinity College Dublin, it is how incredibly different the university is from what I imagined it would be. I got some things right: sweeping lawns, beautiful buildings and incredibly interesting professors. However, I definitely did not anticipate this school's incredible knack for engaging students, for making them feel welcome and at home in a prestigious place that has welcomed so many great minds and could have easily become standoffish and exclusive.”

– Sydne Tursky,
University of Arkansas

“ Even though I'm only here for the term, all of the societies still wanted me to join them and take part in their activities. I didn't know before getting here if it would be easy or difficult to get involved since I am only here for such a short time, but so far it's been really easy to feel like a member of the student body.”

– Madison Tucky,
University of Southern California
